Prime 2 Network in 2020

For 2020, Medihelp has focussed on safeguarding the sustainability of Prime 2 Network through intentionally enhancing its day-to-day and added insured benefits and applying responsible pricing whilst being mindful of economic pressures experienced by members.

Your benefits in 2020 and the processes to follow in order to access it are discussed at length in the Prime 2 Network guide. Simply click on the link below to view or download the guide.

New in 2020

Insured day-to-day child care benefit

Should your savings account funds become depleted during the year, an insured **GP consultation benefit of R2 000 will activate for children from 2 years old and younger than 12 years** to provide for unforeseen medical expenses associated with **young children**.

Increase in ante- and postnatal consultations

For 2020, the added insured benefits **for ante- and postnatal consultations at a GP, gynaecologist or midwife will increase from 8 to 12 consultations**.

The following **added insured benefits for women** (available in addition to the savings account) have been aligned with the latest trends in clinical practice for intervals of care and will be as follows:

Pap smear	1 per beneficiary per 3-year benefit cycle (the cycle starts in 2020)
Mammogram	1 per beneficiary 40 years and older per 2-year benefit cycle (the cycle starts in 2020)

Contributions in 2020

The adjustment to Prime 2 Network's contributions was influenced by changes in its membership profile and members' benefit consumption, resulting in a required average increase of 9,4%. A comparison between Prime 2 Network and competitor products based on 2020's pricing shows that Prime 2 Network remains a sound choice for 2020, with the increase in benefits adding to the product's competitiveness.

In 2020, you continue to pay only for the two youngest children younger than 18 years and you pay child dependant rates for children until they turn 26 years old. The monthly contributions from 1 January 2020 are as follows:

Monthly contributions

Principal member		R2 160 (R3 888 savings available per year)
Dependant		R1 776 (R3 168 savings available per year)
Child dependant <26 years		R648 (R1 152 savings available per year)

Employer subsidies have not been taken into consideration.

Network providers

Four hospitals have been added to the private hospital network in KwaZulu-Natal and the Western Cape. The Prime hospital network now consists of 119 hospitals (please see page 24 of the guide).

Where applicable, designated service providers will remain the same in 2020 (please see page 33 of your guide). It is advisable to make use of these providers in order to avoid unnecessary expenses.

Specialists

The network of nominated specialists for PMB services and the contracted network of surgeons with whom tariffs for PMB and non-PMB services have been negotiated, are updated regularly and available under the “Provider search” function on the Member Zone.

Emergency transport services

Netcare 911 is the designated service provider for emergency transport services in 2020. Phone them on **082 911** to pre-authorise emergency transport.

Service and support in 2020

- The [Member Zone](#) (secured website for members) enables you to find information in just a few clicks. You can download tax certificates, view available benefits, access claim statements, update details and submit requests for hospital authorisation online.
- The Medihelp member app’s features include access to an e-membership card, a network provider locator and details of your available benefits.
- The latest élan magazine featuring articles ranging from a healthy pregnancy to brain health is available on the [HealthPrint website](#) for your reading pleasure.

Should you consider interchanging to another benefit option from 1 January 2020, please notify us via the [Member Zone](#) or by email to membership@medihelp.co.za by Monday, 16 December 2019 at the very latest. After this date, interchanges between benefit options will not be accepted. If you wish to phone Medihelp to interchange, please do so before 16:00 on Friday, 13 December 2019 on 086 0100 678 to allow enough time for the interchange to be processed.

Kind regards

HEYN VAN ROOYEN
